

lavabi d'arredo

built-in washbasins

**imar**

---

Linea pura, armoniosa e semplice,  
vasta gamma di modelli realizzati  
in un materiale dalle qualità indiscutibili  
con una finitura che mette in risalto  
la forma.

Grazie agli agganci e alle viti appositamente  
predisposti si può facilmente installare  
su qualsiasi materiale: legno, metallo, cristallo,  
marmo, piastrellati, resine, ecc.

La qualità e la resistenza dell'acciaio  
inossidabile (AISI 304, inox 18/10) garantiscono  
la bellezza e la durata  
nel tempo.

La finitura, brillante speculare  
o satinata Scotch Brite, è raggiunta mediante  
spazzolatura meccanica effettuata da macchine  
robotizzate coadiuvate dall'opera manuale  
di capaci operatori. Tale processo  
fa risaltare tutte le qualità, l'eleganza  
e la modernità del lavabo inserito  
nel mobile.

#### **Caratteristiche Tecniche:**

**Acciaio inossidabile al Cr/Ni 18/10 AISI 304.**

**Lamiera di forte spessore: 10/10.**

**Resistenza alla corrosione intergranulare  
secondo DIN: 50914.**

Clear, simple and harmonious.

A wide range of models from high quality material,  
with a bright finish that enhances  
the shape and style.

Through preset fixing elements (couplers and screws),  
the installation is extremely fast and easy on every  
surface: wood, metal, marble, glass, ceramic tile, etc.

The high quality and resistance of stainless steel (AISI 304,  
inox 18/10) guarantees beauty and long life to the  
washbasin.

The finish, bright mirror polished or matt-brushed (Scotch  
Brite), both hand-finished by experienced operators,  
enhances all the qualities of the washbasin: its elegance  
and "state of the art" looks.

#### **Technical Specifications:**

**Cr/Ni stainless steel 18/10 AISI 304.**

**Thickness: 10/10.**

**Acid resistant as for DIN: 50914.**

Una serie completa, con modelli armoniosi e semplici dal dimensionamento più vario, studiata e realizzata per soddisfare le moderne esigenze di arredamento, al fine di inserire il servizio lavabo ovunque lo si voglia, con la massima facilità di installazione su piani di legno, metallo, vetro, piastrellati, marmo, ecc.

La elevata qualità dell'acciaio porcellanato è ormai universalmente riconosciuta: il procedimento di porcellanatura è effettuato con i migliori smalti (Emails Bayer), assolutamente inattaccabili dagli agenti corrosivi, per cui si ottengono superfici perfettamente levigate e brillanti che senza alcuna manutenzione, garantiscono costantemente la massima pulizia ed igiene.

La gamma dei colori è vastissima e consente tutte le tonalità, dai tenui colori pastello alle tinte più accese e vivaci. Il fissaggio al piano, grazie agli agganci e alle viti appositamente predisposti, è semplice e veloce.

I prezzi, grazie alle moderne tecnologie produttive, sono estremamente competitivi.

#### **Caratteristiche Tecniche:**

**Acciaio ad alta resistenza di forte spessore.**

**Smalto speciale vetrificato sul metallo (Emails Bayer) antiurto e antiacido.**

A complete series of simple and harmonious models with several sizes, studied and realized to satisfy all modern furnishing requirements, in order to be able to place the washbasins wherever you want to, as they can be easily installed on every surface: wood, metal, glass, ceramic tile, marble or any other material.

The high quality of enamelled steel is today appreciated worldwide; the glazing process is carried out with the best enamels (Emails Bayer), resistant to corrosive chemical agents, so as to obtain perfectly smooth and brilliant surfaces which always guarantee cleanliness and hygiene, without any particular difficulty of upkeep. The wide range of colours permit the use of every shade: from the delicate pastel colours to the brightest ones. The installation is extremely fast and easy

by the use of preset fixing elements.

Prices, thanks to modern production technologies, are extremely competitive.

#### **Technical Specifications:**

**High quality heavy thickness steel.**

**Special porcelain (Emails Bayer) shockproof and acid resistant enamel on metal.**
